

WORKSHOP OUTCOMES

MORE & BETTER HOMES USING WOOD

MORE & BETTER LOCAL MANUFACTURING

MORE & BETTER HOME-GROWN TIMBER

ENABLE
(e.g. Design specification, procurement support and decision-making tools)

Develop design and procurement decision making tools to support the switch to wood

WS1.3/1.8 Land-use policy change

WS1.5 LA & RSL to build more multi-storey timber dwellings

WS3.1 New incentives for growing and processing

WS3.2 Planting schemes on LA farms and land

WS3.3 Improved species mix

ENCOURAGE
(e.g. support the supply chain, product R&D, marketing, certification, technical advice and networks)

WS3.3b Create regional supply hubs

WS1.4/2.2 Timber homes first campaign

Targetted R&D support for timber growers, processors and manufacturers

WS2.8 Develop WKW standardised design

WS3.8 Actions to increase woodland management

WS2.9/10 Create Centre of Excellence for timber processing

EXEMPLIFY
(e.g. Promotion and marketing, demonstration projects, case studies)

WS3.3c Cooperative action between forest owners and house builders

WS1.1 Create WKW exemplar housing as part of WG Innovative Housing Programme

WS3.3a Integrated regional model from tree to building

Home Grown Homes LA and RSL pilot projects

ENGAGE
(e.g. Education, training, workshops, competitions, site visits, events)

WS1.2 Create dynamic apprenticeship training programme

WS3.5 Education in schools

WS2.1 Timber house building competition

WS2.3 Establish inspiring education centre for wood (e.g. Techniquest)

WS2.7 Promote natural capital approaches to investment decisions

WS3.6 'Hearts and minds' marketing campaigns

ENFORCE
(e.g. WG, LA, RSL, NGO and corporate regulations, policies and targets)

WS1.7 Materials based performance targets

WS3.9 Allow land-use change

WS1.6 Higher fabric standards

WS2.4/5 Procurement changes to support local companies

WS2.6 National and regional targets for timber building

WS3.7 Embodied carbon incentives
