SPONSORSHIP AND EXHIBITOR OPPORTUNITIES AT WOODBUILD 2026

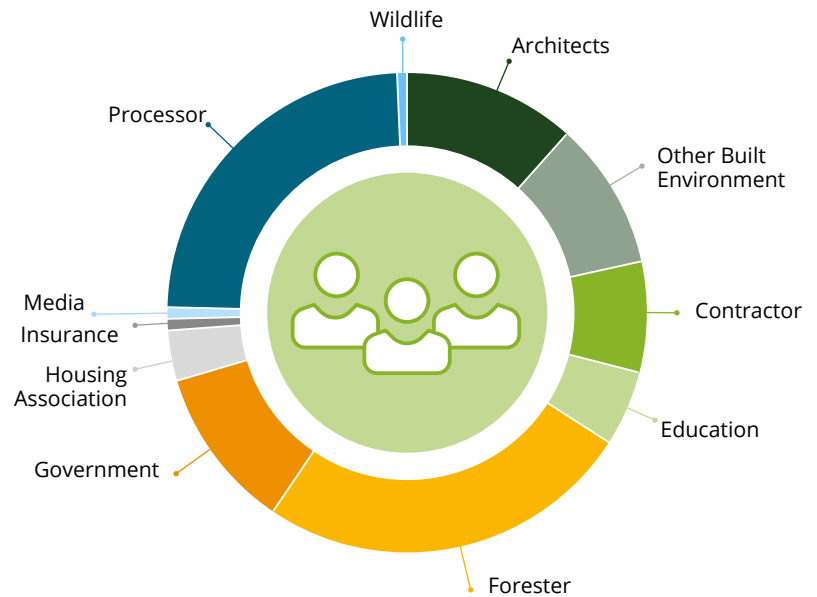

Partnering with WoodBUILD connects your organisation to a community shaping the future of forestry, timber and sustainable construction. As a sponsor or exhibitor, you will share in a programme built on collaboration and knowledge exchange, with opportunities that raise your profile while supporting the wider goals of the sector.

Who attends WoodBUILD?

Since 2017, our WoodBUILD events have been keenly anticipated by our participants as an opportunity to learn, collaborate, and network with senior colleagues and influential academics and policy makers from across the timber supply chain.

We consistently attract around 170 -190 visitors attending each day, from Director/ Senior level roles, offering multiple workshop streams from expert speakers, and host a steadily growing exhibition.

“The variety of people who attended, the variety and quality of the speakers. The ample opportunity to meet and network over a 48hr event”

“It was great to listen and learn about the Timber Strategy for Wales and the enthusiasm shown by organisations to push timber as the construction material of choice. Go timber!”

“Seeing the different roles with varied outlooks and expectations within the room in a collaborative and friendly environment was fantastic.”

For all sponsorship or exhibitor enquiries, please contact Liz.walder@woodknowledgewales.co.uk
